

Miad Bin Mostafiz

Industrial Engineer | Solution Consultant | Process & Supply Chain Optimization

Mohakhali, Dhaka | binmostafizmiad@gmail.com | +8801789530853 | [LinkedIn](#)

Professional Summary

Results-driven Industrial Engineer with hands-on experience in B2B digital solution consulting, implementation, and process optimization for manufacturing industries. Passionate about bridging the gap between engineering, technology, and business impact.

Experiences

Solution Consultant (Sales Engineer) | Diverzent

June 2025 to Continue

- Delivered technical consulting across ERP, Operational Planning, IE Tools, and ESG, tailored for manufacturing clients.
- Conducted targeted market analysis, generating 25 qualified leads and successfully expanding the manufacturing client base by 20% over seven months.
- Led process deep-dive workshops & analysis with clients to uncover inefficiencies, achieving a reduction in cycle time.
- Successfully implemented planning solution and achieved a 2% gain in Productivity.
- Supported supply chain digitization and process automation initiatives to improve transparency and resource utilization.

Management Trainee Officer | Urmi Group

July 2024 to January 2025

- Managed end-to-end garments, trims, and accessory flows using ERP and Inventory Management Systems (IMS), gaining exposure to stock reconciliation.
- Supported the optimization of production scheduling via line balancing, time studies, learning real-time productivity analysis, and capacity management.
- Assisted in projects on QA operations, internal audits, and defect root cause analysis across embroidery, trims, and cut panels for quality consistency.

Internships

Bangladesh Industrial Technical Assistance Center (BITAC)

May 2023-August 2023

- Gained hands-on training in process engineering, including CNC, lathe, milling, fabrication, and heat treatment.

Bay Rubber Ltd

June 2022

- Observed supply chain workflows and manufacturing processes in a rubber footwear production unit.

Education

BSc in Industrial and Production Engineering (2023)

National Institute of Textile Engineering and Research (NITER), A Constituent Institute of the University of Dhaka | CGPA: 3.77 out of 4.00

Skills & Expertise

Data Tool and Literacy: ERP System, Visio, Power BI, SQL, Python (In Progress), MS Office Suite (Expert Excel)

Soft skills: Communication, Leadership, Emotional Intelligence, Critical Thinking

Engineering Tools: Lean Six Sigma, Process Optimization, DMAIC, TOC, OEE, MCDM, Operations Research

Professional Development & Certification

- Data Analysis-Excel, Power BI, SQL, and Python-Ongoing
- Leadership and Emotional Intelligence- Indian School of Business (Coursera).
- Digital Manufacturing & Design- The State University of New York (Coursera).
- Project Management (Initiating & planning).

Research & Project

- Thesis on the mitigation of operational bottlenecks and enhancing overall flow through by using the Lean Six Sigma(LSS) frameworks.
- Research on the Supply Chain of Perishable Goods, Journal:(An ISM & TOPSIS Approach).
- Designed & fabricated an excessive sound notifier to reduce the health impact of noise on human health.

Extracurriculars

- NITER Science Society (NSS): Secretary (2023).
 - Spearheaded event organization and collaborated with faculty and industry experts.
 - Led research initiatives across disciplines.
- Competitions:
 - BIHRM Supply Chain Case Study (6th Place)
 - Hult Prize 2020 (Top 10 Intra-Campus) & NASA Space App Challenge (2020 & 2021)
- Seminars & Workshops: Regularly attended seminars focused on Industry 4.0, Sustainable Supply Chains, and Advanced Data Analytics.
